JOB EXPERIENCE

DATABASE ADMINISTRATOR

March 2014 – Present

Honeywell – Jacksonville, FL

Responsible for administering SQL Server 2008 R2 and 2012 database servers in a highly secure military environment. Implemented DISA security requirements on each database server. Responsibilities include database security, backups, monitoring, installation/configuration, and performance tuning. Implemented database mirroring, SSRS solutions and SSIS packages. Technologies involved include VMWare, Windows Server 2008 and 2012, IIS 7.5 and 8, and Sharepoint 2010.

APPLICATION DEVELOPER

July 2011 – March 2014

Oyova Software – Jacksonville, FL

Responsible for all stages of web development for large and small scale projects at Oyova Software. Primarily coded projects in PHP/MySQL, with some Java, C#, and Objective C as well. Collaborated with team members at all phases of development. Apply regular updates and maintenance on existing sites. Developed custom designs, and custom backend systems for clients. Troubleshoot issues and Q/A for users. Lead developer on a number of large scale projects, including web software, and iPhone/Android App development.

WEB DEVELOPER

April 2010 – July 2011

Homes.com/BestImage Marketing – Tallahassee, FL

Responsible for designing, coding, and routine changes on top real estate agent websites. Used a variety of software and languages, including Photoshop, Dreamweaver, ASP, jQuery, JavaScript, and HTML/CSS.
